HAEEUN YANG

yanghe@snu.ac.kr · haeeunyang.github.io

EDUCATION

Seoul National University, Graduate School of Business *Mar 2025 – Feb 2027 (Expected)*
M.S. in Management Information Systems
Advisor: Prof. Wooje Cho
Thesis (tentative): "When Do Strategic Alliances Matter for Firms' Data Breach Risk? The Role of R&D Alliances"

Sookmyung Women's University *Mar 2019 – Aug 2024*
B.E. in Software Convergence & B.B.A. in Business Administration (Double Major)
Graduated with Honors for Academic Excellence

University of Bern, Switzerland *Sep 2022 – Feb 2023*
Exchange Student, Computer Science

RESEARCH INTERESTS

- **Cybersecurity and Privacy** — how strategic alliances, and R&D alliances in particular, shape firms' data breach risk, and how firms disclose and manage that risk
- **IT in Organizational Strategy** — how firms' digital activities shape firm value, including the role of IT in M&A and strategic alliances
- **Digital Platforms and E-Commerce** — cross-platform usage dynamics and their effects on mobile commerce
- **Methods** — econometrics for observational data (causal inference, panel and time-series analysis); machine learning and LLMs for measurement from textual data

PUBLICATIONS

Jung, S.†, **Yang, H.**†, Cheung, Y.†, Yoon, H. J., & Kwon, Y. (2026). "Inter-App Dynamics: A VAR Analysis of OTT and SNS Effects on Shopping App Usage." *Journal of Product Research*, 44(1), 79–90. doi:10.36345/kacst.2026.44.1.010

Cheung, Y.†, **Yang, H.**†, Kwon, Y., & Chang, Y. B. (2025). "The Impact of Digital Activity on Financial Performance: A Comparative Analysis of the IT and Retail Industries." *Information Systems Review*, 27(1), 379–393. (in Korean) doi:10.14329/isr.2025.27.1.379

† Equal contribution (co-first authors)

WORKING PAPERS

Yang, H., & Cho, W. "When Do Strategic Alliances Matter for Firms' Data Breach Risk? The Role of R&D Alliances." Work-in-progress paper *accepted for presentation at* the Workshop on e-Business (WeB 2026), Lisbon, Portugal, Dec 2026.

- Examines whether newly formed strategic alliances are associated with firms' likelihood of data breaches, and whether R&D alliances moderate this association, using SDC alliance data matched with breach records from PRC

Yang, H.†, Jung, S.†, Cheung, Y.†, Yoon, H. J., & Kwon, Y. "Who Shops After Streaming? Demographics, Content Preferences, and Cross-App Usage from Media to Mobile Shopping." Work in progress.

- Examines how the relationship between OTT/SNS app usage and shopping app usage varies with users' demographics and content preferences, using individual-level panel data on app usage time

† Equal contribution (co-first authors)

CONFERENCE PRESENTATIONS

Yang, H.*, & Cho, W. "When Do Strategic Alliances Matter for Firms' Data Breach Risk? The Role of R&D Alliances." *Workshop on e-Business (WeB 2026)*, Work-in-Progress Track, Lisbon, Portugal, Dec 2026 (upcoming).

Jung, S., **Yang, H.***, Cheung, Y., Yoon, H. J., & Kwon, Y. "Inter-App Dynamics: A VAR Analysis of OTT and SNS Effects on Shopping App Usage." *Korean Academy of Product and Technology Spring Conference*, Incheon, Korea, May 2025.

Cheung, Y., **Yang, H.**, Kwon, Y., & Chang, Y. B. "The Impact of Digital Activity on Financial Performance: A Comparative Analysis of the IT and Retail Industries." *Korea Big Data Society Fall Conference*, Seoul, Korea, Nov 2024.

* denotes presenter

RESEARCH EXPERIENCE

Research Assistant, Seoul National University (Prof. Wooje Cho) *Nov 2025 – Apr 2026*

- Matched patent assignee records to firm names using large language models (LLMs)

Research Assistant, Seoul National University (Prof. Taewoo Lee) *Mar 2025 – Feb 2026*

- Supported a research project on regional disparities in healthcare access in Korea
- Built a district-level panel from HIRA and Korea Community Health Survey data (2008–2024), harmonizing administrative boundary changes over time
- Mapped regional gaps between healthcare demand and clinic supply

PROJECTS

RAG-Based Engineering Q&A Assistant, Industry–Academia Collaborative Project, IT and Business Innovation, Sookmyung Women's University *Sep 2026 – Nov 2026*

- Developed a bilingual RAG chatbot web application with hybrid (keyword + embedding) retrieval, built to an industry partner's requirements for power-plant maintenance
- Served as project mentor, guiding student teams and providing technical advice

Camera Pose Regression with Deep Learning, Deep Learning course, Sookmyung Women's University *Mar 2024 – Jun 2024*

- Built an image dataset from indoor video and compared four deep learning architectures (CNN, Transformer, ViT, autoencoder) for pose estimation

Course–Career Mapping via Data Visualization, SM-Data Competition, Sookmyung Women's University *Apr 2024 – May 2024*

- Built a word-cloud system linking students' coursework to employment outcomes; Excellence Prize

TEACHING EXPERIENCE

Teaching Assistant, Management Information Systems (Undergraduate), Seoul National University *Spring 2025, Fall 2025, Spring 2026*
Teaching Assistant, Synergy Management and Network Analysis (Executive MBA), Seoul National University *Fall 2025*

AWARDS AND SCHOLARSHIPS

Graduation Honors for Academic Excellence, Sookmyung Women's University *Aug 2024*
Excellence Prize, Data Visualization Competition, Sookmyung Women's University *May 2024*
Highest Academic Honors (with Full-Tuition Scholarship), Sookmyung Women's University (ranked first in department across all class years) *Spring 2023*
Academic Honors, Sookmyung Women's University *Fall 2023*

SELECTED COURSEWORK

Mathematics, Statistics & Economics: Mathematics and Statistics for Data Science (G), Advanced Psychological Statistics (G), Advanced Social Survey Data Analysis (G), Linear Algebra, Computer Mathematics, Microeconomics
Computer Science & Machine Learning: Machine Learning, Deep Learning, Data Mining and Analysis, Algorithms, Database Design and Query
Information Systems: Research in Information Systems (G), Economic Analysis of Information Systems (G), Seminar in Quantitative IS Research (G), Seminar on Organizations and Information Systems (G)

(G) = graduate-level course

SKILLS

Programming: Python, R, Stata, SQL, C, Java, HTML
Languages: Korean (Native), English (Fluent)
